EDUCATION

Northwestern University | M.S. in Electrical Engineering — **Sep 2026 - Jun 2028 (Expected)**

University of California, Berkeley | Engineering Exchange - Digital Systems, Analog IC Design, Semiconductor Devices — **Jan 2025 - May 2025**

Xi'an University of Technology | B.Eng., Electronic Science & Technology | GPA: 3.6/4.0 — **Sep 2022 - Jun 2026**

PRODUCT EXPERIENCE

CloudSublet | Founder & Product / Engineering Lead — May 2026 - Present

Student-housing marketplace across Northwestern, UChicago, UC Berkeley, and Yale

- Identified international students' pain points in fragmented group-chat and social-platform housing searches; defined product positioning, PRD, information architecture, interaction flows, and data model from concept to launch.
- Prioritized and shipped core marketplace workflows across listings, rental requests, search and discovery, identity verification, messaging, and trust & safety, owning both product decisions and technical implementation.
- Ran a two-round beta with 80 users and 122 test scenarios across subletter and seeker workflows; independently diagnosed and implemented all technical fixes, resolving 13 issues from the second round.

Shining Builders | Developer — May 2026 - Present

- Extended the open-source follow-builders project into a Chinese AI digest and a free daily website, defining target users, content-selection criteria, and the LLM summarization workflow for AI builders and product practitioners.

GROWTH & CONTENT

Social Media Creator & Brand Partnerships | RedNote — Sep 2022 - Present

- Grew a RedNote account to 10K+ followers and 74K+ likes and completed 60+ sponsored brand partnerships, translating brand objectives into audience-focused content and promotional campaigns.
- Used engagement, reach, and content-performance data to iterate on topic selection and creative strategy; top-performing post reached 500K+ views.

Xi'an University of Technology Publicity Department | Video Team Lead — Sep 2023 - Jun 2024

- Helped grow the university's official Douyin account by 20K followers, using completion rate, views, and engagement data to iterate on content strategy; produced 100+ videos, including 50+ exceeding 1K likes.

TECHNICAL BACKGROUND

5-Stage Pipelined RISC-V CPU | Project Lead, UC Berkeley — Mar 2025 - May 2025

- Led delivery of a 32-bit FPGA-prototyped CPU at 95 MHz and 1.24 CPI; redesigned the pipeline to reduce LUT use by 22% (1,293 to 1,008) and save 34 BRAM blocks.

Xi'an Institute of Optics and Precision Mechanics, CAS | Research Intern — Jun 2025 - Sep 2025

- Built a ZYNQ PL-PS communication link without external DDR, reaching 145 MB/s; the architecture became the lab standard for later high-speed acquisition projects.

Golden Bear Analog Integrated Circuits | Project Lead, UC Berkeley — Apr 2025 - May 2025

- Integrated an 8-bit SAR ADC, programmable gain amplifier, bandgap reference, analog multiplexer, and low-dropout regulator for a multi-sensor Internet of Things system; achieved 3.7 mV reference error in simulation.

SKILLS

Product & Analytics: User Research, PRDs, Competitive Analysis, Product Analytics, Growth Analytics

Technical: Python, C/C++, JavaScript, Node.js, REST APIs, Tencent CloudBase, Git/GitHub, Verilog/SystemVerilog

Languages: Mandarin Chinese (Native), English
